

BRENDON PEDRO

AI Engineer and Full-Stack Developer

Taiwan | +886 916-462-003 | bnppedro@gmail.com | github.com/BrendonPedro | linkedin.com/in/brendonnicklo-paul-pedro

PROFILE

AI and Engineering Lead at an IP-licensing agency and EECS master's student at National Yang Ming Chiao Tung University with a Computer Science and Artificial Intelligence focus. Building production AI platforms end to end: full-stack web applications, LLM-powered assessment engines, agentic pipelines, and data infrastructure with TypeScript, React/Next.js, Python, PostgreSQL, and the Claude API.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, SQL

Front End: React.js, Next.js (App Router), Tailwind CSS

Back End / Data: PostgreSQL, Supabase (row-level security), Firebase / Firestore, REST APIs, OAuth 2.0

AI / Agents: Claude API, prompt engineering and output contracts, MCP (Model Context Protocol), agentic coding workflows, computer-vision pipelines, Vertex AI

Tools: Vercel, Google Cloud, Clerk, Git, GitHub

PROFESSIONAL EXPERIENCE

AI and Engineering Lead | Pork Belly Creative Ltd., Taichung, Taiwan Jun 2026 - Present

- Sole engineer at an IP-licensing agency: designed, built, and shipped Cortex, the company's production IP and outreach platform (Next.js, TypeScript, Clerk, Supabase Postgres with RLS, Vercel), in daily use by the team.
- Built an AI fit-assessment engine on the Claude API with versioned output contracts and about 40 automated validator tests, plus agentic infrastructure: an MCP server with propose-then-human-review writes, Gmail OAuth reconciliation jobs, and a computer-vision retail audit pipeline.
- Implemented PII tokenization for Taiwan PDPA compliance; ran development through orchestrated AI coding agents with human approval gates.

Service Lead | Digital Outsource Solutions, South Africa 2016 - 2018

- Managed multiple teams in a technology-enabled service environment, supporting performance, problem resolution, customer operations, and reporting.

Founder and Managing Director | Linguistically Cultured (Pty) Ltd, South Africa 2014 - 2018

- Ran a small business spanning custom clothing and digital printing, strengthening product thinking and ownership.

English Teacher | American Eagle Language School, Taiwan 2018 - Present

- Part-time role alongside graduate studies and the transition into software engineering.

SELECTED PROJECT

Founder and Full-Stack Developer | CEMTA (AI Menu Translation Platform) 2024 - Present

- Developing a web application that translates Traditional Chinese menus into English and Pinyin with a structured UI for non-native speakers in Taiwan.
- Using TypeScript, React, Next.js, Firebase / Firestore, and Google Cloud services including Vertex AI for OCR, transformation, storage, and display workflows.
- Designing features for restaurant partners, validators, and end users, including menu uploads, translation approval, and dashboard-style data views.

EDUCATION

M.S. in Electrical and Computer Engineering | National Yang Ming Chiao Tung University (NYCU), Taiwan Expected 2028

- Computer Science and Artificial Intelligence focus; Spring 2026 intake.

International MBA | National Tsing Hua University, Taiwan 2023

- Graduated with distinctions across completed modules.

B.Com. (Hons) in Management | University of the Western Cape, South Africa 2014

Advanced Diploma in Management | University of the Western Cape, South Africa 2013

B.A. | University of the Western Cape, South Africa 2012
